

22ú Meitheamh 2021
A chailíní,

I cannot believe you are already nearly finished 2nd class and will have the summer holidays soon!

We have sent home the list of the girls in your 3rd class to your parents. You will know some of the girls as they are from your class, and you may also know some of the girls from the other classes. You will get a chance to meet them so you will know who they are, before you go on your summer holidays.

If you have a question, have a look at the letters that I read to you in school and that I sent home - the answer may be there. If it is not, you know you can ask your teacher and she will help you. I will come to see you in your classrooms too.

Remember this question and answer:

- I am scared to move class because I'll miss my friends and my teacher
 - I know. Moving to a new class is a change and sometimes we worry about change. But you will have some girls from your current class with you. You will have a new teacher and she will talk to you and listen to you just like the teacher you have this year. You will be able to write her a note and you can also write one to me too. If you want to talk to me, put your name on the note.

I will see you tomorrow when we can chat.

Le meas,

Mrs. McCarthy,
Príomhoide
